DETAILED ACTION

Response to Arguments

Applicant's arguments, filed 11/13/06, with respect to the rejections made by Nakao (2003/0050005) have been fully considered and are persuasive. The rejection of claims 1, 4-8, and 14-19 have been withdrawn.

Allowable Subject Matter

Claims 1 and 4-19 are allowed.

The following is an examiner's statement of reasons for allowance: **The primary reason for allowance is that prior art does not teach a method nor apparatus for filtering contaminants emitted from a pollution source wherein a filter is vertically spaced below a support member for the pollution source and receives contaminated flow from the pollution source and guides the flow to a conduit which recirculates the flow to the top of the apparatus and through a distributor plate to flow back to the pollution source.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
